# THE PHOTOGRAPHERS' DETERGENT.

A new Preparation for rendering Glass Plates Chemically Clean  
in a few Seconds without the use of water.

## DIRECTIONS.

Shake the bottle, and then apply a few drops of the Solution to a piece of woollen rag, and rub well both sides of the plate. Next rub well with a linen cloth, and finally polish with wash leather. Rinsing in water will be unnecessary. When the Detergent becomes too thick, it is to be diluted with Alcohol.

Sold in Bottles at 1s. each, by

**SQUIRE & Co., Photographic Warehouse,**  
52, KING WILLIAM STREET, LONDON BRIDGE.

# PATENT DRY COLLODION PLATES.

OFFICES AND MANUFACTORY:

**98, LICHFIELD STREET, BIRMINGHAM.**

The above Firm is now issuing Dry Collodion Plates six times more sensitive than formerly, excelling in this respect the Collodio-Albumen and washed Albumen processes, while they may be developed in two or three minutes, and yield results, in vigour, brilliancy, and detail, superior to the best wet negatives.

Possessing great keeping qualities, being quite undeteriorated after EIGHTEEN months, they can be recommended as safe articles of export, and to Architects, Engineers, Artists, Officers, Manufacturers, and Tourists, these Plates will be found invaluable.

\*\* A LIBERAL ALLOWANCE TO THE TRADE.

## LEAKE'S DARK TENT, FOR PHOTOGRAPHY IN THE FIELD.

The lightest and cheapest, the most convenient and efficient Tent ever made.

Packing into a space of 22in. by 12in.; 2in. deep; weight, 5lbs.

Price £1 11s. 6d.; or French-polished Mabogany, with superior Fittings,  
£2 12s. 6d.

"Very ingeniously contrived, and singularly portable."—*South London Photographic Society*, June 1.

SOLE AGENTS:

H. SQUIRE AND CO.,

52, KING WILLIAM STREET, E.C.

### NOTICE.

The present List contains the prices only of the most usual articles required in the profession; but Messrs. Squire and Co. keep a stock of all goods employed in the practice of Photography, and all novelties and improvements will be constantly added. To those requiring articles of superior quality the very best will be furnished; others who desire the cheaper quality will be supplied at the lowest possible quotation.

# NEW AND BEAUTIFUL DISCOVERY.

## MESSRS. HENRY SQUIRE & CO.

Have the honour to announce a new and exceedingly beautiful process,  
for the production of Glass Positives, styled

### ALABASTRINE PROCESS.

The Pictures combine all the boldness and vigour of paper proofs with the delicacy of the finest Daguerreotype. Uncoloured, these Photographs present the appearance of positive prints on pure white marble or alabaster; the whites possessing the most exquisite purity and intensity, unlike the leaden hue of most ordinary glass positives, or the unpleasant blueness of Pictures bleached by the By-Chloride of Mercury process. The deep shadows are a rich velvet-like black and the gradation of half-tone, perfect. In colouring, any effect may be produced, even to that of the finest ivory miniature. From the peculiar bite of the dry colour on the VARNISH prepared for these Photographs, it is very easy to produce the effect of colouring in pastels. The ordinary Collodion, Exciting Bath, &c., &c., may be used, the effect being produced by a RE-DEVELOPING SOLUTION; but a COLLODION of the purest quality, producing intensity of light and shade, particularly applicable to this process and not liable to peel off, has recently been prepared by H. SQUIRE & Co, at 10s. per lb.

"As glass positives we have seldom seen anything to equal them, whether in their character as photographs, possessing whites of great purity, and rich blacks, or their susceptibility of receiving high finish in colouring by the ordinary dry colours."—*Photographic News*, Sept. 17, 1858.

"I think the Alabastrine Photographs SUPERB. I cannot say too much in praise of them. It is a great step in the positive process."—*Photographic Notes*.

"The Alabastrine Process is splendid. One of the finest portraits I have seen was done by this re-developer."

"I am delighted with the Alabastrine Photographs, which are *perfection*, far surpassing anything I have yet seen. The tones produced are truly flesh-like, and equal the most costly miniature."

"With all the exquisite finish of the most perfect Ivory Miniature these Portraits possess a perfection which *those* could never reach."—*Art Journal*, Aug. 1859.

RE-DEVELOPING SOLUTION sold in bottles at 1s., 2s., and 3s.  
the VARNISH in bottles at 1s. 6d., 3s., and 4s. 6d. each.

And the COLLODION for ditto, 10s. per lb.

### ALSO NEWMAN'S PENETRATING VARNISH,

For Non-inverted Coloured Positives, or Chromo-Photographs, 1s. 6d., 3s.,  
and 4s. per bottle.

Lessons on the Alabastrine Process, and on Colouring,  
taught on the premises.

## SQUIRE & CO.,

Chinese Designs, 3 "	.....	1	0 "
Scroll Designs, 4 "	.....	1	6 "

The sizes measured by the height of the letter.

**Do not fall off—do not require cleaning.**

"Prepared in letters of the most brilliant colors, or in gold. They are fixed to the smooth surface of the glass, windows, &c., by a solution supplied by the inventors, and adhere so firmly as to be immovable by heat, moisture, or friction—we think them calculated, from their economy and beauty, to supersede engraved, embossed, or brass letters on windows and other places for which such inscriptions are required."  
*Morning Advertiser, Dec. 9th.*

"The material is the finest description of Mica, and is formed into letters of any size) which, when fixed upon glass windows become immovable, thus presenting a decided advantage over letters composed of either brass or glass. They present a very brilliant and pleasing effect, being chaste and elegant in design, and as they never require cleaning, must become universal favourites.—*Australian Mail, Nov. 8th.*
